645 Missing and Exploited Children

The South Carolina Educational Resource Center for Missing and Exploited Children is located at Greenville Technical College in Greenville, South Carolina. The Center combines its program with community and statewide programs/agencies and organizations to provide a centralized training and referral service addressing missing and exploited children and related family issues. At the requests from those agencies and the state's technical colleges, the Center Director produces a variety of workshops, conferences, and seminars for a variety of professionals to enhance their skills in working with children and adolescents and their families.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$94,050	\$94,050	\$0	\$0	\$0	\$0	0.00

Expected Results:

Upon completion of provided training, participants (will vary by profession) will be able to: understand the dynamics of all identified child abuse categories; identify suspected child abuse and neglect; follow appropriate reporting procedures; respond to the needs of identified children; develop and evaluate risk reduction programs and intervention techniques; implement effective prevention programs; understand the dynamics of those who abuse children; understand the effects of child abuse on children and adults who were abused as children; improve mental health treatment skills; and have knowledge of appropriate resource information addressing child related problems, intervention, assessment, and treatment.

Outcome Measures:

Upon the completion of every program, each participant completes an evaluation of the program's organization, interest, content, professional value, training, trainers/leaders/presenters, etc. Included on the evaluations are sections on general comments

646 Midlands Tech Nursing Program

Education of students for the work setting is part of the primary mission of Midlands Technical College. This funding will help admit a third cohort of 64 nursing students into the Associate Degree Nursing program and educate them for the course of the two-year program. They will become Registered Nurses and help to alleviate the nursing shortage in South Carolina. Part of this group of students will be admitted on a "merit" basis rather than the current "first qualified, first admitted" basis. The other part will be admitted to an evening/weekend program.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$613,590	\$613,590	\$0	\$0	\$0	\$0	8.00

Expected Results:

The merit group of students will be tracked and compared to the "first qualified, first accepted" group for retention. This method of admission will provide an alternative to the waiting list for highly qualified students wishing to become Registered Nurses thus providing a mechanism for them to enter the workforce in a timely manner. The evening/weekend program will provide an alternative for students who are employed during daytime hours.

Outcome Measures:

70% of the "merit" third group will graduate within three years of admission, and 90% of the students will pass the NCLEX-RN and practice as Registered Nurses in South Carolina. The evening/weekend program is established and the first group of students started.

Agency: H59 - Technical & Comprehensive Education

Functional Group: Higher Education & Cultural

647 Pathways to Prosperity

This funding will be used to implement the South Carolina Education and Economic Development Act (SC Code of Laws Title 59, Chapter 59). The technical colleges and the State Department of Education will work to develop career clusters based upon the 16 national career clusters. The Education and Economic Development Council must designate regional education service centers to coordinate and facilitate the delivery of information, resources, and services to students, educators, employers, and the community. This committee shall include representatives from state technical colleges.

Appropriation Period: FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$1,000,000	\$1,000,000	\$0	\$0	\$0	\$0	0.00

Expected Results:

Potential employees will develop the skills necessary for tomorrow's knowledge-based economy. Workforce education is one of the most critical components in attracting more high-tech employers in emerging growth markets. Enrollment increases are expected.

Outcome Measures:

This activity is measured by enrollment figures and students who obtain employment.

Agency: H59 - Technical & Comprehensive Education

Functional Group: Higher Education & Cultural

648 Florence-Darlington - Entrepreneurial Operations Equipment

Florence-Darlington Technical College is building a new Advanced Manufacturing Center facility. The purpose of the budget funding is to assist in equipping this new facility with state-of-the-art, high technology, industrial training equipment designed to serve high tech manufacturing clients. The equipment will be used to support the training necessary to sustain and attract high tech manufacturing prospects in the Pee Dee region of South Carolina.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$500,000	\$500,000	\$0	\$0	\$0	\$0	0.00

Expected Results:

The College will be able to offer new highly technical training programs that support both current and future industry needs. The training capability will provide an economic development tool, previously lacking in the region. It will be used to attract existing industries and promote startup companies in the area. It is anticipated that economic development prospects will be attracted to the region because of the presence of this level of training. In addition it is expected that existing industries' position in the global market place will be enhanced by having access to this level of training.

Outcome Measures:

Number of training programs offered at the College.

Agency: H59 - Technical & Comprehensive Education

\$0	\$0	\$0	\$0	\$0	\$0	0.00

Agency Activity Inventory
by Agency
Appropriation Period: FY 2007-08

Expected Results:

Increased enrollment in the vocational training program from the high school. Successful training of high school students preparing them for vocational employment and/or additional post-secondary vocational education.

Outcome Measures:

Update facilities and equipment in support of vocational training for the high school in accordance with statutory requirement of Act 58 of the 1969 Legislature.

EXPLANATION:

One time funding in FY 2006-07.

Agency: H59 - Technical & Comprehensive Education

Functional Group: Higher Education & Cultural

1710 Florence-Darlington - SIMT

Florence-Darlington Technical College is building the new Southeastern Institute of Manufacturing and Technology (SIMT). The purpose of the budget funding is to assist in equipping this facility with several new state-of-the-art technologies. These technologies will be used to provide business and industry clients with solutions to strategic training, business operations, and manufacturing technology problems. These solutions will maximize workforce productivity and lead to business success in advanced manufacturing environments.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$1,500,000	\$1,500,000	\$0	\$0	\$0	\$0	0.00

Expected Results:

The College will have new technology at its disposal, such as; CNC machining, 3D virtual reality, rapid prototyping, and industrial robotics. The availability of these technologies at the SIMT will make it a premier training center for industry. Additionally, SIMT will offer these technologies to industry in the form of technical services and support in solving manufacturing problems. With SIMT's assistance, the Pee Dee region of South Carolina will become a very desirable area for new industries to locate.

Outcome Measures:

New technologies will be installed in the SIMT and available to local industries.

1711 Horry-Georgetown Instructional Facility

Agency Activity Inventory
by Agency
Appropriation Period: FY 2007-08

Horry-Georgetown Technical College received additional funding of \$1,000,000 to construct and equip a 50,000 square foot instructional facility that will be dedicated solely to Allied Health programs of study (nursing, radiology, phlebotomy, etc.).

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$0	\$0	\$0	\$0	\$0	\$0	0.00

Expected Results:

With expanded instructional facilities, we are positioned to accept additional nursing students into our Allied Health programs and effectively reduce the statewide nursing shortage.

Outcome Measures:

To graduate more Allied Health students and reduce the statewide nursing shortage.

EXPLANATION:

One time funding in FY 2006-07 for construction.

Agency: H59 - Technical & Comprehensive Education

Functional Group: Higher Education & Cultural

1712 Allied Health Initiative

These funds will be allocated to technical colleges for a coordinated approach that responds to the critical need for more qualified health care workers required to fill jobs created by industry growth and retirement. While the state is in desperate need of health care workers, positions that pay substantially above the state pay average, the Technical Colleges have wait lists of qualified students desiring to enter the field. A challenge we are working with is that this is a recurring problem and will require recurring dollars to address over the long term. One time funds of \$15,856,698 were provided in the prior year and \$10,000,000 in the current year.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$10,000,000	\$0	\$0	\$10,000,000	\$0	\$0	26.11

Expected Results:

Increased enrollment and retention of students pursuing careers in Allied Health Care fields. Improved graduation rates. Additional South Carolina residents filling openings currently available in the state at above the average state income level.

Outcome Measures:

Relieve the enrollment bottlenecks created by lack of teaching faculty and instructional infrastructure including space, equipment, and clinical rotation sites. Increase enrollment and retention which will lead to an increase in the number of graduates.

1713 Technical College of the Lowcountry - Nursing Program

Improve quality of instruction in Health Sciences Program by improving instructional laboratories and equipment and providing professional development activities for nursing faculty.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$250,000	\$0	\$0	\$250,000	\$0	\$0	0.00

Expected Results:

Simulation laboratory will be expanded to provide adequate experiences for the larger nursing classes established. Improved equipment and additional equipment and learning activities will be provided. Professional development activities will be added.

Outcome Measures:

Attendance of NLNAC summit meeting by faculty. 12 Adjunct faculty and all new faculty will receive workshop training in instructional techniques. Simulation lab will be added for New River Campus and first year students will be included in simulated laboratory experience.

1818 Greenville Tech Northwest Campus Heritage Hall

Heritage Hall is a small conference center enabling Greenville Technical College – Northwest Campus to host small to medium size continuing education, community groups, student orientation seminars, and special interest programming. The Heritage Hall will be equipped to hold groups ranging from 20 to over 400 in one of four partitioned spaces within the hall. The lobby area of Heritage Hall will feature displays of historical significance directly tied to the textile industry, schools, and communities surrounding the campus. Heritage Hall will feature full conference capabilities, including sound, lighting, and digital display. It will also feature a kitchen area to serve as a staging area for catered affairs.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$400,000	\$0	\$0	\$400,000	\$0	\$0	0.00

Agency Activity Inventory
by Agency
Appropriation Period: FY 2007-08

Expected Results:

Greenville Technical College expects the Heritage Hall to draw community organizations, schools, businesses, and other small to medium size groups to the campus. This will provide the campus with necessary exposure of their new facilities and programs to these particular groups. It is expected that this exposure will assist the college in expanding its programs and services directly impacting personal and economic development in the northwestern section of Greenville County. It is further expected that Heritage Hall will serve as a low cost alternative for local high school student gatherings.

Outcome Measures:

Outcome measurement will be incorporated into the overall strategic plan for Greenville Technical College Northwest Campus. This will include space utilization analyses, surveys of organizations and groups utilizing the facility, focus groups derived from the surrounding community, and community perception surveys. These tools will be studied to determine the overall effectiveness and utilization of services of the Heritage Hall.

EXPLANATION:

Heritage Hall, a small conference center, is expected to draw community organizations, schools, businesses, and other small to medium size groups to the campus, which will assist the college in expanding its programs and services.

1819 Piedmont Pottery Program

To establish an entrepreneurial program in the service region that offers opportunity to residents to train and practice while perfecting their pottery skills. Pottery has long been a tradition in Edgefield County where the Professional Clay program is located and draws students not only from an economic standpoint but also preserves the historical significance of the art of creating pottery. Support has been provided from residents of Edgefield County who view this as an economic boost and a potential tourist attraction in South Carolina for this is the only affordable public training facility for professional clay students in the state.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$150,000	\$0	\$0	\$150,000	\$0	\$0	0.00

Expected Results:

Economic benefits of having skilled artisans in this sector of South Carolina.

Outcome Measures:

First class has matriculated and several of the students are returning for advanced preparation. Students have successfully created pieces, many that have sold, and have developed entrepreneurial skills for the start up of their own businesses within the service region.

EXPLANATION:

This activity provides economic benefits by producing skilled artisans in Edgefield county and surrounding areas.

1820 York Tech-Chester Technology

York Technical College is a public, two-year, associate degree-granting institution. York Technical College seeks to contribute to the economic growth and development of York, Lancaster, and Chester counties and of the State. The college responds to the technical and public service needs of the community.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$500,000	\$0	\$0	\$500,000	\$0	\$0	0.00

Expected Results:

York Technical College provides opportunities for individuals with diverse backgrounds and ability levels to acquire or upgrade the knowledge and skills necessary in engineering technology, industrial technology, information technology, business, health, or public service employment or for transfer to senior colleges and universities.

Outcome Measures:

York Technical College seeks to provide graduates competency in written and oral communication, computer skills, mathematics, problem-solving, and interpersonal skill. The students will graduate with an Associates Degree, Diploma, or Certificate. York Technical College students can transfer to another college or university, or the student will acquire the knowledge or skills necessary for employment.

EXPLANATION:

This activity is needed to meet the increasing number of students and meet the needs of the community.

1824 Central Carolina Technical College-Nursing Program

The College was allocated \$2 million in FY 07 for renovation of a facility in downtown Sumter to serve as the College's new Health Sciences center. The College is currently working to develop plans to secure the remaining funds through various sources including EDA funding, federal grants, and local health care partnerships.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$2,000,000	\$0	\$0	\$2,000,000	\$0	\$0	0.00

Expected Results:

Increase training space for the College's Health Sciences programs from approximately 27,000 square feet to approximately 68,000 square feet.

Outcome Measures:

Increase the availability of health sciences professionals in the region and throughout the State by expanding the College's current nursing/allied health programs and establishing new programs based on workplace needs.

EXPLANATION:

The purpose of this activity is to increase training space for Central Carolina's Health Sciences programs and to increase the availability of health sciences professionals in the region and throughout the State.

1825 Apprenticeship

The System supports the business-led initiative to implement a statewide registered apprenticeship awareness and facilitation process. In order to take advantage of the statewide network that already exists, the System has agreed to serve as the centralizing operational force behind this process, utilizing an organizational relationship similar to the successful Center for Accelerated Technology Training model.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$1,000,000	\$1,000,000	\$0	\$0	\$0	\$0	8.00

Expected Results:

We will expand awareness of and strengthen the statewide network of apprentices. This furthers our efforts in workforce development. We are working with the State Chamber of Commerce and the Palmetto Institute on this initiative.

Outcome Measures:

Currently, South Carolina lags far behind its neighbors in the effective utilization of registered apprenticeships as a workforce development option, and the establishment of a statewide, centralized group responsible for promoting awareness of the option and facilitating its effective utilization by businesses would provide strong impetus for its expanded use.

EXPLANATION:

The purpose of this activity is to implement a statewide registered apprenticeship awareness and facilitation process.
